Dear Parents and Families,

You may be unaware of the sacrifices made by our teachers in accepting salaries well below those of other schools, and by our administrators and Board in donating countless hours and personal resources to provide a superior educational and spiritual home for your children. The entire staff is willing to go to the extreme for the good of Holy Cross, always depending on the grace and assistance of God for whatever result he desires.

The actual cost for a Holy Cross education is still over \$5000 per student per year. The rate for the 2022-2023 school year will increase slightly to \$3900 for the first child and \$1950 for the second, with additional children free. This is considerably lower than other private or parochial schools in the area. Fees for all children in the family and the volunteer commitment still apply.

We know that so many of you will donate your time and talents to help Holy Cross in countless ways, and we are sincerely grateful for that. We are confident that, with your help and God's blessing, we will be able to meet our obligations and proceed with the mission of providing a beacon of faith and hope in our community.

Please call the school if you have any questions concerning tuition.

May God bless you all.

Sincerely,
Holy Cross Academy
Board of Trustees
